drives this vital mission

The American Diabetes Association® (ADA) is dedicated to ensuring equitable access to healthcare, breaking barriers, and fostering innovation in diabetes prevention and care.

RESEARCH

Research fuels our fight against diabetes. Since 1952, the **ADA's research program has empowered brilliant scientists, translating discoveries into clinical practice.**

300

PUBLICATIONS

The ADA's **Standards of Care** in Diabetes play a pivotal role in shaping clinical diabetes management by providing evidence-based guidelines that improve patient care, influence global practices, promote health equity, and serve as a cornerstone for education and training in the healthcare community. Our trusted publications distill cutting-edge research, including the *Standards of Care*, reaching millions of professionals worldwide.

ADVOCACY

The ADA drives **groundbreaking policies** championed by over **400,000 ADA advocates nationwide**. From Capitol Hill to state legislatures, we relentlessly pursue impactful reforms for the diabetes community.

Expanded CGM access to 6.47M people

Achieved \$35 insulin price caps

Addressed 25,000+ cases of diabetes discrimination

COMMUNITY

Our community programs and initiatives exist to serve the diabetes community by **promoting healthy lifestyle changes, fostering connections**, and advancing health equity for all.

~50,000
